

kyra

Tante le novità per il SISTEMA CUCINA KYRA, che permettono di realizzare con la massima libertà compositiva ambienti cucina e zone living personalizzate come un abito sartoriale. Con Kyra si può avere l'anta caratterizzata da una delle maniglie della nuova collezione, studiata appositamente con finiture dal carattere vintage o moderno.

Di particolare interesse estetico e funzionale è KYRA VINTAGE che, grazie a materiali e accessori dalle finiture e dal design esclusivo, propone un inedito mood che ricorda le aree dei Docks o dei grandi loft ricavati da luoghi del passato industriale. Molte le possibilità di scelta di finiture e colori per abbinamenti moderni e ricercati: tutte le ante sono lisce e dello spessore di 20 mm e si possono avere nelle nuove finiture TSS (Tecno Structure Surface) Sincro Poro fiamma verticale, nell'esclusivo Sincro Poro effetto Vintage a fiamma verticale, nell'aristocratico effetto vetro lucido e opaco, nel pratico MDF rivestito in Polimerico nei colori tinta unita lucidi o opachi e nei colori legno lucidi e opachi e nel prestigioso MDF Laccato fronte e bordi lucido e opaco che, oltre ai nuovi colori Fango, Bianco Caldo e all'esclusivo Peltro, viene proposto a campione nei colori della vasta gamma RAL. Originale l'anta a telaio in MDF laccata Peltro con vetro retinato per caratterizzare ancor più le composizioni di Kyra Vintage. Ad arricchire le potenzialità del programma viene proposto KYRA STORAGE, una serie di moduli a scaffale di nuova concezione per una maggiore libertà di configurazione per ambienti emozionali e funzionali. I mille dettagli e le molteplici possibilità compositive fanno di Kyra un modello tipico della produzione Creo Kitchens.

KYRA

CREO ECOLOGIC

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE, IL PIU' SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

Regarding the production of its kitchen structure components, lube group has decided to only use materials featuring very low formaldehyde emissions complying with the 4-star standard, as defined by the jis regulation. This standard is certified by the japanese government-the most rigorous when it comes to environmental protection.

In the KYRA KITCHEN SYSTEM there are a lot of news which allow to realize kitchens and living areas with the maximum of creativity for the composition, as for a custom tailored suit. The Kyra door can be characterized by one of the new collection handles, specifically designed with the finishes in vintage or modern style. KYRA VINTAGE is very interesting both from the aesthetic and functional point of views, thanks to the unique finishes and design of materials and accessories. It offers a new reminiscent mood characterizing the Docks areas, or the big lofts built in the industrial sites of the past. There are many choices of finishes and colors for modern and sophisticated combinations: all doors are smooth with 20 mm of thickness, and available in the new TSS finishes (Surface Structure Technology) as in the vertical flame Synchro Pore, then in the exclusive Synchro Pore vintage effect with vertical flame, in the refined gloss and matt glass effect, in the practical MDF covered with Polymeric glossy and matt solid colors or glossy and matt wood colors, and finally in the prestigious lacquered MDF (glossy and matt front and edges), that in addition to the new colors Mud, Warm White and to the exclusive Pewter, is proposed to sample in the RAL wide range of colors. Very original is the lacquered Pewter MDF frame door, with wired glass to characterize even more the Kyra Vintage compositions. To enrich the potential of the program the brand proposes KYRA STORAGE, a range of open modules created to offer a greater possibility of configuration for emotional and functional environments. Thanks to the many details and configuration solutions, Kyra can be defined as a typical model of Creo Kitchens production.

INFORMAZIONI TECNICHE

TECHNICAL INFORMATION

Le misure indicate nel presente listino sono espresse in cm.

Le profondità delle basi si intendono comprensive di top.

Le profondità dei pensili e delle colonne si intendono comprensive di ante.

Le altezze delle basi e delle colonne si intendono comprensive di zoccolo

Il verso degli elementi è individuato dalla posizione delle cerniere. Fanno eccezione solo l'angolo base e la colonna ad angolo dove il verso viene individuato dalla posizione dell'anta rispetto al mobile.

Per gli elementi con il verso, è stato inserito il codice con entrambi i versi (ad esempio una base da cm 45 cod. E4010451/2).

Sarà quindi necessario specificare se l'ultima cifra dovrà essere "1" per il verso destro cioè E4010451 oppure "2" per il verso sinistro cioè E4010452.

Per i lavelli il verso dx o sx è individuato dalla posizione delle vasche.

Nel caso vengano richieste maniglie con passo diverso da quello previsto dal modello, le ante verranno fornite senza fori maniglia.

The measurements appearing in this price list are expressed in cm.

The depths of base units are inclusive of the worktop.

The depths of the wall units and columns are inclusive of the doors.

The heights of the base units and columns are inclusive of the plinth.

The direction of the elements is determined by the position of the hinges. The only exceptions are the corner base unit and corner column, where the direction is determined by the position of the door in relation to the cabinet.

For elements that come with a direction, the code includes both directions (e.g. 45 cm base unit - code E4010451/2).

It is therefore necessary to specify the last figure - "1" for the RH direction, i.e. E4010451, or "2" for the LH direction, i.e. E4010452.

The RH or LH direction of the sinks is determined by the position of the bowls.

The prices indicated are expressed in units of Euro and exclude VAT and the WEEE fee.

Prices of the base units and columns are inclusive of the standard plinth.

The prices that apply to all custom-sized cabinets are indicated on the page "Surcharges for custom-sized elements".

In the event of handles requested with a different centre-to-centre distance compared to the standard for the model, the doors will be supplied without pre-drilled holes for the handles.

PENSILE CON APERTURA A RIBALTA

Le ante aprendosi verso l'alto consentono di avere un' ampia visione d'insieme all'interno del mobile. In questo modo è possibile un comodo accesso agli oggetti contenuti al suo interno e, dal punto di vista ergonomico, molto vantaggioso. La regolazione della forza di apertura può essere impostata in modo esatto in base al peso del frontale. Grazie all'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata di serie.

WALL UNIT WITH FLAP DOOR

The doors that open upwards guarantee ample overall visibility inside the cabinet. In this way, all objects housed inside the cabinet can be comfortably accessed, making the system highly advantageous from an ergonomic perspective. The opening force can be adjusted precisely according to the weight of the front. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned standard

	A	B	C
H 36	7	4	37
H 48	11	4	49

Grazie al meccanismo TIP-ON, le ante a ribalta senza maniglia possono essere aperte semplicemente con un leggero tocco. Per chiudere l'anta a ribalta, è sufficiente esercitare una leggera pressione, che grazie ad una piastrina di bloccaggio, applicata sul lato interno del frontale, ne assicura la perfetta chiusura.

Thanks to TIP-ON mechanism, the flap doors without handles can be opened with a simple touch. To close the flap door, just exercise light pressure, thanks to the locking plate, applied on the inner side of the front panel ensures a perfect closure.

APERTURA VERTICALE OBLIQUA

I pensili con questo tipo di meccanismo necessitano per l'apertura di poco spazio libero sopra il mobile grazie al movimento basculante dell'anta che si apre senza difficoltà applicando poca forza anche in presenza di frontali pesanti. Con l'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata ed è possibile regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING OBLIQUE

Wall units that mount this type of mechanism require little clearance above the cabinet thanks to the swivelling movement of the door that can be easily opened by applying slight pressure, even with heavy fronts. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

H 60	18	9,6	46,5	53,5
H 72	18	9,6	57	61

PENSILE CON APERTURA ANTE A PACCHETTO

Il meccanismo d'apertura ante a pacchetto è idoneo sia sul pensile H 72 che H 96; la regolazione della forza di apertura può essere impostata in modo esatto in base ai pesi dei frontali, la chiusura è ammortizzata e la cerniera centrale clip si contraddistingue per l'innovativa tecnologia che garantisce la sicurezza per le dita.

WALL UNIT WITH LIFT-UP FOLDING DOORS

The lift-up folding door opening mechanism is suitable for wall units with H 72 or H 96; the opening force can be adjusted precisely according to the weight of the fronts, while the closing movement is cushioned and the central clip-on hinge features innovative technology for safeguarding the fingers.

KYRA

Il modello KYRA NECK si differenzia per il sistema a gola che permette di ottenere linee forti ed essenziali.

Le particolari finiture Lucido, Bianco Semilucido e Brown Opaco della gola, sono abbinabili a una qualsiasi delle nuove ante che caratterizzano il modello Kyra.

Molte le possibilità di scelta di finiture e colori per abbinamenti moderni e ricercati: tutte le ante sono lisce e dello spessore di 20 mm e si possono avere nelle nuove finiture TSS (Tecno Structure Surface) Sincro Poro fiamma verticale, nell'esclusivo Sincro Poro effetto Vintage a fiamma verticale, nell'aristocratico effetto vetro lucido e opaco, nel pratico MDF rivestito in Polimerico nei colori tinta unita lucidi o opachi e nei colori legno lucidi e opachi e nel prestigioso MDF Laccato fronte e bordi lucido e opaco che, oltre ai nuovi colori Fango, Bianco Caldo e all'esclusivo Peltro, viene proposto a campione nei colori della vasta gamma RAL. I mille dettagli e le molteplici possibilità compositive fanno di Kyra Neck un modello tipico della produzione Creo Kitchens.

CREO ECOLOGIC

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE, IL PIU' SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

Regarding the production of its kitchen structure components, lube group has decided to only use materials featuring very low formaldehyde emissions complying with the 4-star standard, as defined by the jis regulation. This standard is certified by the japanese government-the most rigorous when it comes to environmental protection.

The KYRA NECK model differs for the finger rail system that allows to have strong and basic design lines. The unique rail system finishes in the Gloss, Semi-Gloss White and Matt Brown colors, can be combined with any of the new doors characterizing the model Kyra.

There are many choices of finishes and colors for modern and sophisticated combinations: all doors are smooth with 20 mm of thickness, and available in the new TSS finishes (Surface Structure Technology) as in the vertical flame Synchro Pore, then in the exclusive Synchro Pore vintage effect with vertical flame, in the refined gloss and matt glass effect, in the practical MDF covered with Polymeric glossy and matt solid colors or glossy and matt wood colors, and finally in the prestigious lacquered MDF (glossy and matt front and edges), that in addition to the new colors Mud, Warm White and to the exclusive Pewter, is proposed to sample RAL wide range of colors.

Thanks to the many details and configuration solutions, Kyra can be defined as a typical model of Creo Kitchens production.

CREO ECOLOGIC

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE. IL PIÙ SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

LUBE GROUP HAS CHOSEN TO EXCLUSIVELY USE MATERIALS WITH VERY LOW FORMALDEHYDE EMISSIONS FOR THE COMPONENTS MAKING UP THE KITCHEN CARCASSES. THESE ELEMENTS COMPLY WITH THE F4 STAR STANDARD ACCORDING TO JIS, CERTIFIED BY THE JAPANESE GOVERNMENT - THE MOST STRINGENT WHEN IT COMES TO ENVIRONMENTAL PROTECTION.

Grazie al meccanismo TIP-ON, le ante a ribalta senza maniglia possono essere aperte semplicemente con un leggero tocco. Per chiudere l'anta a ribalta, è sufficiente esercitare una leggera pressione, che grazie ad una piastrina di bloccaggio, applicata sul lato interno del frontale, ne assicura la perfetta chiusura.

Thanks to TIP-ON mechanism, the flap doors without handles can be opened with a simple touch. To close the flap door, just exercise light pressure, thanks to the locking plate, applied on the inner side of the front panel ensures a perfect closure.

COMPOSIZIONE CON ELEMENTI INCLINATI

COMPOSITION WITH INCLINED ELEMENTS

LIVING

Spazi coordinati per avere un solo ambiente per cucinare, ricevere gli amici, pranzare e rilassarsi è una soluzione al desiderio di vivere la casa più liberamente, secondo stili di vita contemporanei, integrando cucina e living all'insegna di un nuovo linguaggio progettuale.

Coordinated spaces that create a single environment in which to cook, receive friends and relax is a solution that allows you to experience the home more freely.

In line with contemporary lifestyles, this solution integrates the kitchen and living area to create a new design language

STRUTTURA CONTENITIVA A PARETE

CONTAINMENT STRUCTURE TO WALL

Struttura contenitiva a parete in metallo verniciato bronzo titanio con mensole in metallo dello stesso colore, regolabili mediante un sistema a cremagliera (vedi particolare in foto). Disponibile nelle larghezze L 60 e L 90 entrambe nelle altezze H 132 e H 180

Containment structure to wall in painted metal bronze titanium with adjustable metal shelves same colour as structure, on a rack system (see detail in photos). Available in W 60 and W 90 for the H 132 and H 180

PARTICOLARE

Dettaglio della cremagliera per regolare la posizione delle mensole su tutta l'altezza del telaio

Rack system detail for adjust the position of shelves over the whole height of the frame

STRUTTURA CONTENITIVA A PARETE MODULARITÀ

CONTAINMENT STRUCTURE TO WALL MODULARITY

STRUTTURA A PARETE IN METALLO H 132 P 28,5

Composto da:

- 2 cremagliere
- 4 mensole regolabili

Structure to wall in titanium H 132 D 28,5

Consist of:

- 2 rack systems
- 4 adjustable shelves

RILEVAZIONE DEL FUORI SQUADRO

OUT-OF-PLUMB MEASUREMENTS

Per le composizioni ad angolo è importante rilevare l'esatta misura dell'angolo per il corretto montaggio della cucina.

Si tenga presente che la diagonale dell'angolo di 90° è di cm 141,4 (100x100).

For corner compositions, it is important to measure the corner precisely to ensure that the kitchen is correctly installed.

Bear in mind that diagonal segment opposite the 90° corner measures 141,4 (100x100)

Riportiamo di seguito una tabella in cui sono riportate rispettivamente la misura dell'angolo con la diagonale corrispondente.

Below is a table indicating, respectively, the size of the corner and the length of the corresponding diagonal segment

ANGOLI SUPERIORI A 90° CORNERS EXCEEDING 90°

angolo in gradi corner in degrees	diagonale in cm diagonal segment in cm
90	141,4
90,5	142
91	142,6
91,5	143,3
92	143,9
92,5	144,5
93	145
93,5	145,7
94	146,3
94,5	146,9
95	147,4
95,5	148
96	148,6
96,5	149,2
97	149,8
97,5	150,4
98	150,9
98,5	151,5
99	152,1
99,5	152,6
100	153,2

ANGOLI INFERIORI A 90° CORNERS BELOW 90°

angolo in gradi corner in degrees	diagonale in cm diagonal segment in cm	aumento in cm della composizione increase in cm of the composition
90	141,4	—
89,5	140,8	—
89	140,2	—
88,5	139,5	—
88	138,9	—
87,5	138,3	—
87	137,7	—
86,5	137	—
86	136,4	—
85,5	135,8	1,5
85	135,1	2
84,5	134,5	2,5
84	133,8	3
83,5	133,2	3,5
83	132,5	4,5
82,5	131,9	5
82	131,2	6
81,5	130,5	6,5
81	129,9	8
80,5	129,2	8,5
80	128,5	9,5
79,5	127,9	10
79	127,2	10,5
78,5	126,5	11,5
78	125,8	12
77,5	125,2	12,5
77	124,5	13,5

ANGOLO MAGGIORE DI 90° CORNER EXCEEDING 90°

Nel caso in cui abbiamo un angolo maggiore di 90° le misure della base ad angolo non cambiano, ma viene aumentata la misura del massello angolare (Y).

N.B. per angoli maggiori di 110° interpellare sempre il nostro Ufficio Tecnico.

In case of corners exceeding 90°, the dimensions of the corner base unit do not change, while the size of the corner solid wood section (y) increases.

Note: for corners exceeding 110°, always contact our Technical Department.

ANGOLO COMPRESO TRA 86° E 90° CORNER BETWEEN 86° AND 90°

Nel caso in cui abbiamo un angolo compreso tra 86° e 90° le misure della base ad angolo non cambiano, ma viene diminuita la misura del massello angolare (Y).

Inoltre è necessario tener presente che di seguito alla base ad angolo non possono essere inserite basi forno, cassettiere, lavastoviglie, ma esclusivamente basi con anta incernierata sul fianco.

In case of corners between 86° and 90°, the dimensions of the corner base unit do not change, while the size of the corner solid wood section (y) decreases. Moreover, it is important to remember that oven base units, drawer units or dish-washers cannot be inserted next to the corner base unit, but only base units that have the door hinges on the side.

ANGOLO MINORE DI 86° CORNER BELOW 86°

Quando l'angolo è inferiore a 86° la lunghezza della composizione viene aumentata in rapporto all'ampiezza dell'angolo (vedi tabella) per questo motivo è importante specificare nell'ordine le misure delle pareti da arredare.

Inoltre è necessario tener presente che di seguito alla base ad angolo non possono essere inserite basi forno, cassettiere, lavastoviglie, ma esclusivamente basi con anta incernierata sul fianco.

When the corner measures below 86°, the lenght of the composition increases in relation to the size of the corner (see table); for this reason, in the order it is important to specify the measurements of the walls to be furnished. Moreover, it is important to remember that oven base unit, drawer units or dish-washers cannot be inserted next to the corner base unit, but only base units that have the door hinges on the side.

RILEVAZIONE DEL FUORI SQUADRO

OUT-OF-PLUMB MEASUREMENTS

Nelle composizioni lineari dove a inizio o fine composizione c'è una parete fuori squadra prendere sempre la misura della diagonale e comunicarla al nostro Ufficio Tecnico.

In regards to linear compositions that have an out-of-plumb wall at the beginning or end of the composition, remember to always take the measurement of the diagonal segment and notify it to our Technical Department.

Nell'esempio n. 1 l'angolo è maggiore di 90° e quindi occorre aumentare il top davanti; la stessa cosa si deve fare per le basi, mettendo una fascia di tamponamento.

In example no.1, the corner exceeds 90°, thus the worktop must be extended on the front; the same applies to base units, where a filler panel must be added.

Nell'esempio n. 2 l'angolo è minore di 90° occorre accorciare la composizione; questo vale sia per il top che per le basi.

In example no.2, the corner is below 90°, therefore the composition must be shortened; this applies to both the worktop and base units.

Nel caso in cui nell'angolo ci sia un pilastro, occorre rilevare oltre alle misure del pilastro anche le 3 diagonali come riportato nello schema (d1-d2-d3).

In case there is a pillar in the corner, we need to have the 3 diagonal measures as shown in the scheme (d1-d2-d3) other than the measures of the pillar itself

INFORMAZIONI PER LA PROGETTAZIONE

DESIGN INFORMATION

CAPPA A RIDOSSO DEL PENSILE ANGOLO HOOD ADJACENT TO CORNER WALL UNIT

Consigliamo di non posizionare una cappa d'arredamento a fianco di un pensile angolo 65x65 diagonale in quanto impedisce la corretta apertura dell'anta.

It is advisable not to install a design hood adjacent to a 65x65 cm diagonal corner wall unit, as this interferes with the opening of the wall unit door.

PENSILI ANGOLO A RIDOSSO DELLA COLONNA CORNER WALL UNITS NEXT TO THE TALL UNIT

Per problemi di apertura evitare composizioni angolari dove il pensile angolo è a ridosso della colonna

Avoid corner compositions where the corner wall unit is next to the column in order not to have problems in opening the doors

FRIGORIFERO VICINO AL MURO REFRIGERATOR NEAR THE WALL

Nel caso che una colonna frigorifero sia posizionata vicino ad una parete occorre lasciare uno spazio di almeno 4 cm per consentire una totale apertura dell'anta della colonna e l'estrazione totale dei cassetti dell'elettrodomestico.

If a fridge column is positioned close to a wall, leave at least 4 cm free to ensure the full opening of the column door and the full extension of the appliance's drawers.

ELETTRODOMESTICO A FINE COMPOSIZIONE HOUSEHOLD APPLIANCE AT THE END OF A COMPOSITION

Nel caso che la lavastoviglie o la lavatrice sia posizionata a fine composizione occorre l'uso di un fianco di finitura fino a terra, considerando lo spessore dello stesso per determinare la lunghezza del top.

If a dishwasher or washing machine is placed at the end of a composition, it is necessary to install a finishing side down to ground; the latter's thickness must be considered when determining the length of the worktop.

INFORMAZIONI PER LA PROGETTAZIONE

DESIGN INFORMATION

BASE ANGOLO 95x95 2 ANTE GIREVOLI 95x95 CORNER BASE UNIT WITH 2 SWIVEL DOORS

Non è possibile inserire gli elettrodomestici.
Household appliances cannot be inserted

PENSILE ACCANTO ALLA COLONNA WALL UNIT NEXT TO A COLUMN

Evitare il posizionamento del pensile verso la colonna, in quanto non si ha una completa apertura dell'anta e si rischia di danneggiare il fianco.

Avoid placing a wall unit near the column, as this prevents the complete opening of the door and may cause the side to be damaged

FORNI STATICI SENZA VENTILAZIONE NON-VENTILATED STATIC OVENS

Evitare l'abbinamento dei forni statici senza ventilazione di raffreddamento nelle colonne, poiché il calore e il vapore emanati durante il funzionamento dell'elettrodomestico possono danneggiare le antine e la struttura della colonna.

Avoid inserting non-ventilated static ovens in columns, as the heat and steam generated during the appliance's operation may damage the column's doors and carcass.

INCASSI PIANI COTTURA HOB CUT-OUT

Verificare sempre l'incasso (spessore top) dei piani cottura posizionati sopra qualsiasi elettrodomestico sottotop (lavastoviglie, frigorifero, ecc.)
Always check the cut-out of hobs (thickness of work top) where under counter appliances are positioned (dishwasher, fridge, etc...)

Si consiglia di utilizzare il pensile con l'apertura dell'anta opposta alla posizione della colonna con cerniere a 180°

It is advisable to use a wall unit with a door that opens in the opposite direction to the column's position, with 180° hinges.

PENSILE A PACCHETTO WALL UNIT WITH LIFT-UP FOLDING DOOR

Per evitare nei pensili con apertura a pacchetto l'interferenza dell'anta in fase di apertura con cornici o mensole si può richiedere il limitatore dell'angolo di apertura cod.5620005

In order to avoid that the lift-up folding door interferes with cornices or shelves during the opening movement, it is possible to request an opening angle limiter code 5620005

INFORMAZIONI PER LA PROGETTAZIONE

DESIGN INFORMATION

PENISOLE - ISOLE CON LAVASTOVIGLIE CON ZOCCOLO POSTERIORE

PENINSULAS - ISLANDS WITH DISHWASHER WITH BACK PLINTH

Nei casi di lavastoviglie, rifinita con zoccolo posteriore, inserita su isole o penisole è obbligatorio aumentare la profondità standard delle basi di 5 cm, con una maggiorazione del 18%

In case there is a dishwasher positioned in island or peninsula with back plinth, it's obligatory to add 5 cm extra to the depth of the bases, with a surcharge of 18%

PENISOLE - ISOLE CON LAVASTOVIGLIE CON PANNELLO POSTERIORE

PENINSULAS - ISLANDS WITH DISHWASHER WITH BACK PANELS

In alternativa, lasciando la profondità di serie degli elementi, rifinire sempre con pannello posteriore fino a terra

Otherwise if keeping the standard depth, the back of the island must be refined with back panels down to floor
